## Education

- **09/2015 - 09/2019** **Bscs**  
Comsats University, Abbottabad  
Bachelor of Computer Science

## Projects

2018-2019

### **AUTOMATED WATER PUMP INTEGRATED WITH ANDROID APP**

*Comsats university abbottabad*

The controller system will automatically switch on/off the pump motor immediately at the predetermined level. When the overhead tank is full, the pump motor will get switched off automatically, preventing overflow of the tank.same as when the water tank gets underflow the pump switched on automatically The controller system works with a water-level sensor assembled in water tank and the user can view the level of their water tank in an android app
